Subject: KMOV-TV Ch. 4: Bridgeton landfill with radioactive waste under microscope today

KMOV-TV Ch. 4 - Bridgeton landfill with radioactive waste under microscope today - 11/21/13 - A fire underneath the closed Bridgeton sanitary landfill and the stinky smell it puts off has raised new concerns about what's buried at the neighboring landfill. The Westlake Landfill is an EPA Superfund cleanup site, where tons of radioactive waste was dumped illegally in the 1970s. Concerns about the fire spreading to the radioactive material raised new concerns about what to do about the Westlake Landfill.
